Hiring Manager

Goldman Sachs

Bengaluru Office

Subject: Application for Summer Analyst Internship

Dear Hiring Manager,

I'm writing to apply for the Summer Analyst Internship at Goldman Sachs. I'm currently in my second year of Electronics & Communication Engineering at R.V. College of Engineering, and also pursuing a B.Sc. in Data Science from IIT Madras. My academics have equipped me with strong technical and analytical foundations.

My interest lies at the intersection of finance and technology. I've built a Raspberry Pi-based object detection system using TensorFlow and developed a full-stack web application called *PriintIt* using React, Node.js, Clerk, and Supabase. These experiences sharpened my skills in coding, problem-solving, and building scalable systems from scratch.

Goldman Sachs' blend of innovation, impact, and collaboration excites me. I'm eager to bring my hands-on approach, quick learning, and drive to contribute meaningfully to your team and grow through the Summer Analyst experience.

Thank you for your time and consideration. I'd be thrilled to discuss how I can contribute to Goldman Sachs.

Warm regards,

Thilak S.
